Couplertec Electronic Rust Proofing  
38 Hutchinson Street  
BURLEIGH HEADS QLD 4220

Attention: Mr Garry Bell

Dear Garry

### **ELECTRONIC RUST PROOFING SYSTEM**

Logan City Council had installed your Electronic Rust Proofing Systems on 2 of our quad bikes approximately three and a half years ago.

We are more than happy to pass on our thanks for the wonderful job these systems did in protecting our vehicles from the corrosive environment.

Our quads operate on average 4 days per week in an extremely salty environment as they are used for Pest and Weed control spraying in local salt-water swamp areas and mangroves.

Previous quads that we owned and operated under these same conditions would only have a very short life span of around 2 years and have little or no resale value due to being near totally destroyed by corrosion.

We have just traded in our 2 quad bikes that were fitted with your Electronic Rust Proofing system and were amazed how good they looked and that they were in an above average condition when sold. Apart from substantial savings in maintenance repairs, we have also nearly doubled the life of these vehicles.

We would also like to thank you for transferring your systems to our 2 new quads and look forward to receiving the same great results this time round.

Thanks Couplertec for a great cost saving device.

Yours faithfully

  
for G R Kellar  
CHIEF EXECUTIVE OFFICER
