Garry Bell
CouplerTec Electronic Rust-proofing
38 Hutchinson Street
Burleigh Heads Qld 4220

Dear Garry,

As Waratah Beach is located on the very southern tip of Australia our vehicles are exposed to an extremely corrosive salty environment throughout the year.

We have used your Electronic Rust-proofing Systems on our vehicles since the year 2000 and are very satisfied with CouplerTec's effectiveness in controlling corrosion.

We are now fitting your Electronic Rust-proofing System to the new 4WD we have just purchased knowing that we will get the same great results as we did over the last 5 years.

Our previous two 4WD vehicles were sold in an as new condition with no corrosion problems thanks to CouplerTec Electronic Rust proofing Systems.

Waratah Beach SLSC has no hesitation in recommending CouplerTec to anyone or any business who want the best Rust-proofing solution available.

Regards
Tim Barbour
President
Waratah Beach SLSC.
